Thank you so much for your letter of 2 April. As you requested, I am enclosing a copy of our Directions to Contributors in which we have tried to answer most of your questions about method and style. If the article on the Central Intelligence Agency is prepared in reasonable conformity to it recommendations, our editorial burdens will be considerably lightened.

As in the previous edition, we do not plan to include illustrations in the revised Dictionary. We thank you, however, for offering to provide us with pictures.
